MEDICAL

Empowering your Vision

For the design
and manufacture
of complex medical
and biotech devices,
trust your vision to

Sparton Medical.

Our clients design some of the most technically advanced products in the world, and they demand the same high level of expertise from us. They range from startups and small companies to Fortune 1000 enterprises.

Medical Market Experience

Sparton Medical builds products in a variety of medical and biotechnology markets, including:

- In Vitro Diagnostics
- Molecular Diagnostics
- Cardiac Monitoring
- Neurostimulation
- Life Sciences
- Therapeutic Devices
- Surgical Devices
- Orthopedic Devices
- Electronic Medical Records

**Sparton has the
certifications your
products demand.**

- ISO 9001:2000
- ISO 13485:2003
- FDA Compliant

Proven Medical Competence

No matter what area of the medical industry your device is designed for, we have the expertise to bring it to life.

- We currently manufacture more than 60 devices in the diagnostic, therapeutic, surgical, and instrumentation markets
- More than 20 years designing diagnostic, therapeutic, and surgical devices
- We manufacture class I, II, and III devices
- Our facilities are FDA audited

Full Life Cycle Support

Our engineering expertise, supply chain management, and manufacturing capabilities can support you through any and all of the stages of the product life cycle.

1. Product Design
2. Prototypes and Clinical Trial Builds
3. Production
4. Field Installation
5. Post Production Services

Volume Flexibility

With facilities in Colorado and Ohio, Sparton Medical offers national support and manufacturing capacity for small to mid-size production volume. Our Vietnam facility provides the manufacturing power and cost savings potential for high-volume products.

Essential Technologies

The devices we manufacture utilize the following technologies:

- Precision Fluidics
- Blood Separation
- Chromatography
- Motion Control
- Robotic Handling & Pneumatics
- RF Ablation
- Optics
- DNA Sequencing
- Cell Separation & Processing

sparton

**Empower your vision with Sparton –
from design through market introduction.**

For more than a century, Sparton has been an industry leader in designing, prototyping, and manufacturing some of the world's most complex electronic and electromechanical devices.

From initial prototypes to final shipment, we bring life to your product vision and address complex manufacturing challenges. Over the years, our work with companies large and small has led to our specialization in meeting the high standards of the most demanding markets, including medical, aerospace, navigation, and defense.

sparton

sparton express

One of the first services of its kind, Sparton Express can manufacture and test your existing or newly designed electronic assemblies prior to full production—a cost-effective solution before incurring the costs of a production release. We support Proof-of-Concept (PoC) and Production-Ready (PR) prototypes.
